

BASS GUITAR STRINGS

INFELD

INFELD bass strings deliver modern tone, with balanced spread across the frequency spectrum. They communicate in a full, well-rounded bass, throaty mids and solid treble without brittleness. Since the outer layer of windings is superalloy, the warm tone is retained. Plus, they are easier on your fretwork than stainless or allsteel strings.

INFELD Basssaiten liefern einen modernen, über das ganze Frequenzspektrum ausbalancierten Klang. Sie transportieren in einem vollen, runden Bass kehlige Mitten und solide Obertöne ohne eine Spur von Sprödhheit. Da die äußere Schicht der Umspinnung aus Superalloy besteht, klingt der Ton sehr warm. Plus: die Bünde werden weniger abgenutzt, als bei Stainless oder Stahlsaiten.

JAZZ FLAT WOUND

Nobody knows flatwound bass strings better than THOMASTIK-INFELD. SPIROCORE strings by THOMASTIK-INFELD have been legendary among upright bassists for decades. Now the electric bassist can also experience the THOMASTIK-INFELD sound. THOMASTIK-INFELD utilizes a highly pliable steel core which is wrapped with a silk inlay. The outer winding is a true ribbon flatwound constructed of a special nickel alloy. The result is an incredible depth of tone and an enhanced fundamental which is unavailable from any other flatwound.

THOMASTIK-INFELD ist der absolute Spezialist für Flat Wound Basssaiten. SPIROCORE Saiten von THOMASTIK-INFELD haben seit Jahrzehnten einen legendären Ruf unter den gestandenen Bassisten. Jetzt kann auch der Elektrobassist endlich den Klang von THOMASTIK-INFELD erleben. THOMASTIK-INFELD verwendet einen äußerst geschmeidigen Stahlkern, der mit einer Seideneinlage umwickelt ist. Bei der äußeren Umspinnung handelt es sich um eine echte Ribbon Flat Wound aus einer speziellen Nickellegierung.
