Audio Interfaces

ULTRAGAIN DIGITAL ADA8200

Audiophile 8 In/8 Out ADAT Audio Interface with MIDAS Mic Preamplifiers

- Ultra-high quality 8-channel A/D and D/A interface for virtually any digital recording/ mixing environment
- 8 state-of-the-art MIDAS designed Mic Preamplifiers
- Phantom power on all microphone inputs
- Reference-class Cirrus Logic 24-bit converters for ultimate signal integrity
- Processes 48 and 44.1 kHz sample rates
- External sample rate synchronization via word clock or ADAT input
- Optical ADAT in/out interface for ultimate compatibility
- All mic/line inputs routed to the ADAT output
- ADAT input routed to all Line outputs
- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V~), noise-free audio, superior transient response plus low power consumption for energy saving
- High-quality components and exceptionally rugged construction ensure long life
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The 8 In/8 Out ULTRAGAIN ADA8200 ADAT Audio Interface builds on the proud legacy of our ADA8000 – which is one of our all-time, best-selling products. Now, you're probably thinking, "If they sell so many ADA8000s, why are they changing them?" The short answer... we made it better – in a really big way! The incredible ADA8200 features stunningly-accurate, reference-class Cirrus Logic A/D - D/A converters and Award-winning MIDAS-designed Mic Preamps – making it the natural choice of professional musicians and audio engineers alike. Your recording tracks will sound just as amazing as you imagined them – when you lay them down with the ADA8200!

Need to Convert Analog Signal to Digital, or Vice Versa?

The ADA8200 is sublimely easy to operate, fits neatly into a single rack space and, thanks to its MIDAS-designed preamps and integrated A/D - D/A converters, you'll get optimal and totally distortion-free signal conversion! Signal conversion takes place at either 44.1 or 48 kHz with 24-bit resolution. The ADAT Inputs and Outputs can be operated independently, as long as you use an identical wordclock signal. And ADA8200's operating frequency range is an ultra-wide 10 Hz to 24 kHz – at a very respectable, 48 kHz sampling rate. Put simply, the ULTRAGAIN ADA8200 is the professional's edge.

The Ins and Outs

Connections are provided for balanced XLR and ¼" TRS, as well as unbalanced ¼" TS inputs. XLR line out connectors located on the rear panel provide either balanced or unbalanced connectivity. Digital I/O is handled via ADAT format TOSLINK optical sockets, which support up to 8 independent channels of ultra-pristine data.

Value

You can trust all your digital ones and zeros to the ADA8200, the professional's choice for recording absolutely-pristine tracks, thanks to its 8 Award-winning MIDAS-designed-mic pres with available phantom power, and the ultra-slick, reference-class Cirrus Logic A/D - D/A converters. The ULTRAGAIN ADA8200 ADAT Audio Interface provides amazing performance, and you'd gladly pay 2 to 3 times the asking price – and really love it!

Order online or stop by your authorized BEHRINGER dealer today and expand your digital arsenal with the incredible ULTRAGAIN ADA8200!

Important Compatibility Information

There is a known issue with the ADAT interface implementation of the MOTU 2408 audio interface that makes it incompatible with the ADA8000/ADA8200 under certain operating conditions. Users are advised to avoid the following configuration:

- The MOTU 2408 is connected to a MOTU PCI-424 card and operating in PCI Mode under computer control
- The ADA8000/ADA8200 SYNC option is set to SLAVE and the clock input is being supplied from the MOTU 2408
- The optical output from the ADA8000 ADAT interface is connected to an ADAT input on the MOTU 2408
