BOME BOX™

MIDI Translator Pro in a box

Specifications:

- Load & execute MIDI Translator Pro project files
- Web interface for configuration
- MIDI in & out, very low latency
- USB Host (Type A receptacle) for connecting MIDI controllers, synthesizers, serial port, USB Hubs, etc.
- 2x Ethernet 100MBit/s: connected via Ethernet switch
- WiFi: 802.11 b/g/n, 2.4 GHz
- "HD Protocol" ready (MIDI Manufacturers Association's next generation protocol)
- Power: Micro-USB Type B, approx 150mA. Or Power over Ethernet (PoE, optional): the Ethernet In port powers the box via PoE and the Ethernet Out port passes on power to a cascaded BomeBox
- Dimensions: 121mm x 96mm x 38mm (4.8" x 3.7" x 1.5")

The ultimate Plug-and-Map experience
