DESCRIPTION

ACTION-M512 is a passive stage monitor designed to deliver a highly versatile solution, from fixed installations to the popular portable PA application. Its rotatable horn with 80° x 50° dispersion means the enclosure can also be used as a PA system.

As part of our company culture, all our systems are developed under a single philosophy: to deliver the highest possible quality in terms of both materials and overall system design. In the ACTION-500 series we use the same birch plywood as our touring systems for a tight, nautral warm sound found nowhere else on the market.

For long-term optimal performance of the ACTION-500 passive versions, the system can only be a complete sound system when rounded out with our amplifiers and processors with stored presets and limiters.

APPLICATIONS

- Live sound reinforcement
- Bands, DJ´s and performers
- Speech and vocals
- Music playback in entertainment
