Genie

LOWREY GENIE (Model ICG-1A). . . Call Forth the Genie for Family Fun!

Lowrey created Genie by the magic of the electronic age. Regardless of your age or musical talent, you'll be playing Genie in a matter of minutes. . . even if you've never played a note before. Just push a button and while holding a Genie chord, "point a finger" and in no time at all you're playing simple melodies with Automatic Rhythm and Bass. Genie conjures up eight automatic rhythm patterns from Bosa Nova, Dixie and Waltz to Samba, Rhumba and Swing. Push a button for your own personal accompaniment with Piano, Guitar or Banjo. Push another for the novel new sound of Vibra Wow or a classic muted trumpet Wow-Wow. Enjoy, also, the other special effects of the Genie: Glide, Vibrato and Percussion.

A completely solid-state, Large Scale Integrated Circuit (L.S.I.C.) and transistor, self-contained home spinet organ with a 37-note upper keyboard, a 33-note lower keyboard and a 13-note pedalboard.

The system includes a 25-watt high-fidelity amplifier, two high-fidelity speakers, one 12" wide-range and one 4" high-range; a headphone jack for playing in privacy and an auxiliary input jack for special hookups.

Dimensions: 35" high, 40" wide and 22" deep. Available in Walnut.
