

# STG soundlabs - Sea Devils Filter

Replica of a 3-pole diode lowpass filter from a British suitcase synthesizer.

## VIEWS

## DETAILS

This tasty diode filter has a filter slope of 18dB and in addition to CV inputs for controlling the Cutoff frequency it also offers voltage control of the resonance.

## CONNECTORS

CV inputs: 2x cutoff frequency, 1x amount, 1x Response  
Audio input and output.

## DIMENSIONS

3U Eurorack module, 14HP wide

## WEIGHT

0,2 kg
