SX-1 V1.52 Install CD

Instructions for creating a CD from downloaded files. (Windows XP)

SX-1 V1.52 is the latest operating system release for the SX-1, SX-1LE and SX-1LEPlus.

Previous versions were only available directly from TASCAM Customer support.
V1.52 is only available as a downloadable image file.

Files you will need:

* From TASCAM Website:
    For SX-1 users: SX-1_V152.zip size = about 40MB
    For SX-1LE users SX-1LE_V152.zip size = about 40MB
    For SX-1LEPlus users SX-1LEPlus_V152.zip size = about 40MB

* Donationware CD creation application:
    "burnatonce" www.burnatonce.com size = about 4MB

1. Download files
2. Install burnatonce
3. Extract the zip file to a directory on your computer
4. Launch burnatonce
5. Select File->Load New Image…
6. Navigate to the directory you extracted the zip file too and select the toc file.
7. The following dialog will appear: "The following incompatibilities were found in toc file: Incorrect dat filename found in toc sheet. Would you like burnatonce to correct this toc file?" Click on "Yes".
8. Insert a blank CD-R into your computer's CD burner drive.
9. Click "Write"
10. When the process has finished, remove the CD, label it "V1.52".
11. Power on your SX-1 and open the CD tray.
12. Insert the newly created CD and reboot the SX-1 (shutdown-power off-power on)
13. Follow on screen instructions to upgrade the OS to V1.52

Instructions for creating an SX-1 Install CD (Mac OSX)

1. Download zip file from TASCAM Website
2. Extract to a directory on your computer
3. Open a command line "shell" prompt
4. Navigate to the directory you extracted the files to.
5. Insert a blank CD-R
6. run the command "cdrdao write SX-1_CD.toc"

Notes:
If you use CD-RW media, it must be 4x or less speed for the SX-1 to recognize it. CD-RW media marked "Hi-speed" is usually 10x speed and cannot be used in the SX-1's drive.
